

# **Our policies for Quality, Environment, Health & Safety, Information Security**

**In order to fully meet all customer requirements, minimize our impact on the environment, protect the health and safety of our employees, and ensure the security of information, AviComp adheres to the following guidelines:**

## **Quality**

- We maintain close contact with our partners throughout the entire project.
- Our high-quality performance comes from the competence and strong commitment of our employees.
- We adhere to all applicable requirements, industry standards and best practices.
- We are committed to the continual improvement of our quality management system for our entire organization and all of our employees.

## **Environment**

- In our daily work, we strive to protect the environment as well as to prevent pollution and continuously reduce the environmental impact of our business practices.
- We offer our customers low-energy solutions.
- We comply with and implement all compliance obligations and legal requirements.
- The efficient use and conservation of our natural resources is a top priority in everything we do.
- We are committed to the continual improvement of our environmental management system to enhance environmental performance.

## **Health & Safety**

- The health and safety of employees and partners is of paramount importance to our company.
- The management ensures that employees are provided with training, medical supplies, and all necessary safety equipment.
- Health and safety rules are enforced in our daily work.
- We are committed to the continual improvement of our occupational health and safety management system to enhance an accident-free and healthy work environment.

## **Information Security**

- Confidentiality is very important to us. Data and information are only processed by authorized persons and protected against unauthorized access.
- We place great importance on integrity and the secure handling of data and information. Throughout the entire life cycle, we ensure that this data and information is accurate, complete, consistent, and unalterable.
- We ensure that systems and data are available to authorized persons and can be accessed at any time as needed.
